

myHockey Membership FAQs

Q: Why do I need to be a myHockey member to view fixtures, results & ladders?

A: Hockey is building a secure online community, of which you play an important part, and as a result your myHockey membership will allow you to view and participate in all areas of Hockey website in a safe environment where security and privacy laws are adhered to. You are helping Hockey to grow and provide better services directly to you and all other members.

Q: How will Hockey benefit from me being a myHockey member?

A: Now that Hockey knows you exist as a participant or supporter, it can better provide services and communications to you, and use its knowledge demographically to source funding. Your membership enhances security and efficiency, and allows Hockey to professionally handle your expectations.

Q: What if I don't want any communications?

A: As a myHockey member, you can select what communications you receive, like email match reminders and club / team news, and what communications you don't want to receive. The choice is yours.

Q: What benefits do I get from being a myHockey member? What's in it for me?

A: You will be able to access fixtures, results and ladders, participate in forums, polls and competitions, and you will also receive your very own myHockey page where you can share your interest in Hockey (and other sport!) with other players, family, friends and supporters. Plus you can select from a range of communications to receive from Hockey Australia, your association, club and friends.

Q: As a myHockey member, will I receive spam and unwanted emails?

A: Absolutely not. Remember, all of the communications you receive are selected by you. Hockey Australia and SportingPulse do not sell your information or provide your membership details to third parties. myHockey membership is about improving online security and adhering to privacy policies.
